Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative and Examiner briefly discussed prior art of record with respect to the instant invention. Applicant asked Examiner's opinion on additional aspects such as manipulation of multiple images while they were being projected that may help to distinguish the instant invention from the prior art. The Examiner discussed other projected image and image-like manipulation systems that were generally known primarily in the realm of 3-Dimensional or "virtual reality" like interfaces. .
